

RAVI KUMAR KAIWART

UI/UX DESIGN ENTHUSIAST | FIGMA | MCA | BIT DURG

ravikaiwart2004@gmail.com | 7974262614 | linkedin.com/in/ravi-kumar-kaiwart

PROFESSIONAL SUMMARY

MCA student transitioning from software development to UI/UX design, currently building hands-on skills in Figma, UI design, prototyping, components, variants, typography, color systems, and micro-interactions. Interested in creating clean, intuitive, and user-focused digital experiences. Actively practicing and documenting my design journey through self-initiated projects and design exercises.

EDUCATION

- MCA Bhilai Institute of Technology, Durg, CG Pursuing	2024-26
- BCA Indira Gandhi Collage, Rahoud, CG 67.78%	2021-24
- 12th GOVT H S School Tundri CGBSE 86.8%	2021
- 10th GOVT H S School Tundri CGBSE 72.83%	2019

TECHNICAL SKILLS

- Language:	JAVA, C/C++, HTML, CSS
- Database:	DBMS Oracle
- Operating System:	UNIX, Windows
- Tools:	Git & GitHub, MS Office

UI/UX DESIGN PRACTICE - FIGMA

- **Ice Cream UI -- Figma**
 - Designed a clean product interface while practicing color palette selection, linear gradients, and visual hierarchy.
 - Created an interactive prototype to explore user flow and basic interactions.
- **Interactive Toggle -- Figma**
 - Created a reusable component with variants for different toggle states.
 - Added micro-interactions and animation to create a smoother user experience.
- **Typography System -- Figma**
 - Practiced typography declaration, text styles, and consistent type hierarchy.
 - Used Figma plugins to simplify repetitive design tasks and improve workflow.

PROJECTS

- **Industrial Safety Chatbot -- UI/UX & Development Project**
 - Designed and developed a user-friendly interface for an AI-powered industrial safety chatbot.
 - Created flows for safety queries, emergency reporting, document access, and emergency contacts.
 - Designed chat, voice input, image upload, and emergency alert interfaces.
 - Designed an Admin Dashboard for incident monitoring and alert management.
 - Applied typography, color, spacing, and component consistency for a clean UI.
- **MoodStream -- Music Recommendation**
 - Designed a clean and intuitive UI for an AI-based mood music recommendation web app.
 - Created user flows for mood detection, playlist recommendations, and music discovery.
 - Designed interfaces for camera, mood results, and Spotify/YouTube playlists.
 - Applied visual hierarchy, typography, colors, spacing, and consistent components.

CERTIFICATION

- GOOGLE UX DESIGN PROFESSIONAL CERTIFICATE -- COURSERA | IN PROGRESS
- PROGRAMMING IN JAVA | IIT KHARAGPUR | NPTEL Swayam
- JAVA & HTML | IIT BOMBAY | Spoken Tutorial
